PRODUCTS & SERVICES

Marine insurance

BNIC Marine Risks is a specialist marine insurance broker. Our sole aim is to provide highly competitive, first class marine insurance solutions to the risks faced by maritime enterprises across the world. This singular purpose defines our approach and underlines our commitment to consistently exceeding our clients' expectations.

Marine insurance covers the loss or damage of ships, cargo, terminals, and any transport or cargo by which property is transferred, acquired, or held between the points of origin and final destination.

Fire insurance

Fire insurance policy can be bought by anyone who is the legal owner of a residential landed property or apartment in order to protect it against loss of or damage to such property. The contents of a home can also be insured against.

You are the owner of a house, your fire insurance policy may be extended to include permanent fixtures and fittings such as fitted kitchen and bedroom closets/cupboards and interior decorations. Outbuildings such as maids quarters or garages may be included as well. The extent of structures to be included will depend on their inclusion in the build up in the sum insured.

In addition, the contents of your home like furniture, carpets, TV, video, hi-fi equipment, piano, bookcase, books, lamps, ornaments, PC, clothing, bedding, kitchenware and appliances, personal effects etc and leasehold improvements can be insured as well. Often the policy on contents/leasehold improvements is issued separately from the policy on the structure although some insurers issue a combined policy for houses.

Many a poet have wondered about the dual power of fire – so constructive and beneficial, yet with the potential to cause so much damage. A single fire accident has the power to wreak complete havoc burning down buildings, plant and machinery and even stocks. A single spark can lead to so much loss and unless adequately insured, a business will find it very difficult to rise from the ashes. With Cholamandalam MS Fire Insurance, ensure that your business is adequately covered against damage arising out of various fire and fire-related perils.

Motor insurance

Motor insurance (also known as auto insurance, car insurance, or motor insurance) is insurance purchased for cars, trucks, and other vehicles. Its primary use is to provide protection against losses incurred as a result of traffic accidents and against liability that could be incurred in an accident.

Under the provisions of Motor Vehicles Act, all vehicles that ply in public places must have an insurance policy that at least covers "Third Party Liability" as specified under the Act. A Comprehensive Motor Insurance Cover in addition to the mandatory third-party cover also protects the car owner from financial losses, caused by loss or damage or theft of the vehicle.

Miscellaneous insurance

Miscellaneous insurance like other forms of insurance is a form of collectivism by means of which people collectively pool their risk, in this case the risk of incurring medical expenses. The collective is usually publicly owned or else is organized on a non-profit basis for the members of the pool, though in some countries medical insurance pools may also be managed by for-profit companies. It is sometimes used more broadly to include insurance covering disability or long-term nursing or custodial care needs. It may be provided through a government-sponsored social insurance program, or from private insurance companies. It may be purchased on a group basis (e.g., by a firm to cover its employees) or purchased by an individual. In each case, the covered groups or individuals pay premiums or taxes to help protect themselves from unexpected healthcare expenses. Similar benefits paying for medical expenses may also be provided through social welfare programs funded by the government.

By estimating the overall risk of healthcare expenses, a routine finance structure (such as a monthly premium or annual tax) can be developed, ensuring that money is available to pay for the healthcare benefits specified in the insurance agreement. The benefit is administered by a central organization such as a government agency, private business, or not-for-profit entity.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements and **Internal Controls**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, the Companies Act 1994, the Insurance Act 2010, the Insurance Rules 1958, the Securities and Exchange Rules 2020 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud orerror.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a quarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- · Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in thecir cumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
